- For a term investment that is 12 months or less, the penalty is three (3) months of interest. For a term investment that is longer than 12 months, the penalty is six (6) months of interest. The penalties shall be limited to accrued interest and shall not invade principal.

MARKET INVESTMENTS

General Investment Pool. The General Investment Pool is designed for medium to long term investors seeking investment growth with income. This investment pool invests predominantly in stocks and bonds but may also have a nominal investment in cash. The target asset allocation is diversified as follows: 45% U.S. stocks, 20% international stocks and 35% high quality U.S. corporate and government bonds. This investment pool offers higher potential for investment growth (loss) relative to other investment options which have no investments in stocks. This investment pool seeks to outperform the MSCI All Country World Index for stock investments and the Barclay's Aggregate Bond Index for bond investments.

Total Equity Pool. The Total Equity Pool is designed for long term investors seeking investment growth. This investment pool invests predominantly in stocks but may also have a nominal investment in cash. The target asset allocation is diversified as follows: 70% U.S. stocks and 30% international stocks. This investment pool offers a higher potential for investment growth (loss) with limited income generated from dividends. This investment pool seeks to outperform the MSCI All Country World Index.

Fixed Income Pool. The Fixed Income Pool is designed for long term investors seeking investment income. This investment pool invests predominantly in bonds and may also have a nominal investment in cash. The target asset allocation is 100% U.S. corporate and government bonds. This investment pool seeks to provide a greater level of income relative to other market investment options with potential for investment growth (loss). This investment pool seeks to outperform the Barclay's Aggregate Bond Index.

CASH FUNDS

Enhanced Cash Fund. The Enhanced Cash Fund is designed for short term investors seeking liquidity. This investment fund shall invest in the debt of Southern Baptist churches. Investments may include the debt of other Southern Baptist entities, as well as cash equivalents.

Money Market Mutual Fund. The Money Market Mutual Fund is designed for short term investors seeking investment income. This investment fund shall invest in an institutional cash money market fund.

All funds, with the exception of the CBL Term Investments, are managed by registered investment advisors.
