

ADVANTAGES OF

Donor Advised Funds

Donor Advised Fund

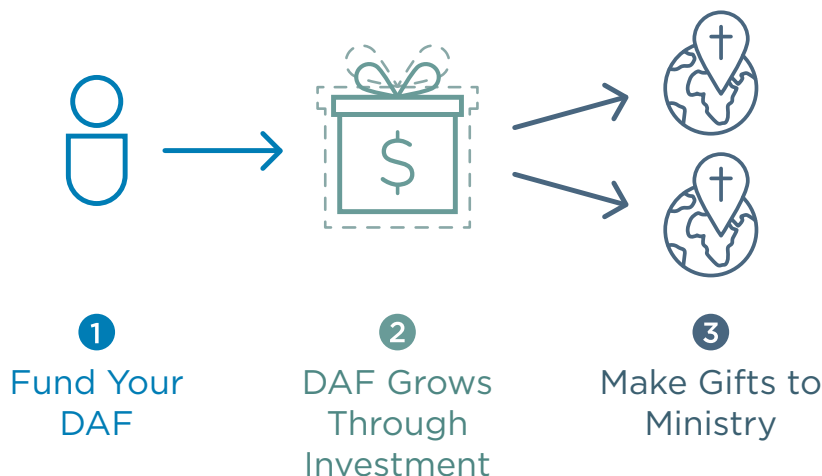

A donor advised fund, or DAF, is a popular tool for charitable giving because it maximizes tax benefits, multiplies your gift's impact and simplifies the giving process.

Think of a DAF like a savings account for all of your giving. Instead of writing multiple checks to individual ministries, you contribute to your DAF

account and receive an immediate tax deduction.

Those contributions are invested and grow tax-free. You decide which ministries to support and how often. When you're ready to make a gift from your DAF, WatersEdge sends the check on your behalf with the click of a button — no paperwork, no fuss.

HOW IT WORKS

“Most people are waiting for some big reason to give. People think, ‘Well, it’s small. It doesn’t matter.’ But everything matters. If it’s a gift the Lord told you to give, then give and be obedient. You’re not going to get to those big things until you’re faithful with the small things.”

Key Benefits

1 Enjoy Flexibility and Convenience

Contribute cash, stocks, property or other assets. Make gifts as often as you like; we'll handle the paperwork for you.

2 Reap Tax Advantages

Contributions are immediately tax-deductible. You'll pay no capital gains tax on donations of appreciated assets, including stocks and real estate.

3 Multiply Your Giving

Contributions are invested and grow over time to maximize charitable impact. All growth is tax-free.

4 Reduce Fees With WatersEdge

There are no fees to open an account or process gift requests. Management fees are waived for select investments.

GIVING EXAMPLE

The Robinsons opened a DAF with WatersEdge using \$10,000 in real estate, \$4,000 in stocks and \$1,000 in cash (\$15,000 total). The family received an immediate tax deduction for the gifts, which were invested and earned an additional \$900 while the Robinsons decided which ministries they wanted to support.

When they were ready, the Robinsons made grants from their DAF to their church, international missions and disaster relief. WatersEdge made it easy, handling all the paperwork and sending the checks to the ministries on the Robinsons' behalf.

CHURCH TITHE

MARKET INVESTMENTS

All investments are subject to risk. Therefore, losses can occur. WatersEdge administers social screens on all investments. Investments in Tobacco, Pornography, Gambling, Abortion, Alcohol, Cannabis, and Embryonic Stem Cell Research is prohibited.

_____ **% General Investment Pool**

The General Investment Pool is managed by WatersEdge’s Board of Directors and invests in a wide range of asset classes. It is allocated into 70% equity, 20% income oriented, and 10% inflation oriented.

The General Investment Pool is tailored for those who desire a well-diversified portfolio that will provide a highly correlated risk/return profile according to its passive benchmark that consists of 70% MSCI AC World Index, 20% Barclays Aggregate Index, and 10% Bloomberg Commodity Index.

_____ **% Developed Market Equity**

The Domestic Equity Fund is a low-cost way to gain diversified exposure to global large and mid-sized companies across all 23 developed markets countries, the largest of which is the United States with approximately 65%. Specifically, the fund is passively managed according to the MSCI World index. Due to its broad diversification, it may be considered a core equity holding in a portfolio.

Our Developed Markets Equity Fund is best suited for those who are willing to take on additional risk for greater potential returns. It should be noted that this allocation contributes 55% of the total 70% equity allocation within the General Investment Pool.

_____ **% Emerging Markets Equity**

The Emerging Markets Equity Fund is actively managed with the MSCI Emerging Markets index and aims to invest in emerging market countries. Stock of companies in emerging markets tend to be more volatile than those in developed countries, which could imply a greater risk-reward profile.

The Emerging Markets Equity Fund is designed to provide exposure to economies that have experienced rapid economic growth but are not yet considered developed. This allocation is intended for those who want to add diversification to a core equity allocation. The Emerging Markets Equity Fund makes up 10% of the total 70% equity allocation within the General Investment Pool.

_____ **% Domestic Bonds**

The Domestic Bond Fund utilizes a core plus, fixed income strategy. This strategy allows the investment team to pursue “plus” sectors like emerging market debt, non-investment grade credits, and/or convertible bonds.

The Domestic Bond Fund is designed for those who are more risk adverse as you may not need or desire additional risk. This allocation will provide a portfolio with a smaller risk/return profile. Domestic Bonds make up 10% of the total 20% Income Oriented allocation within the General Investment Pool.

CASH

_____ **% Institutional Cash Fund** *(most common choice)*

The Institutional Cash Fund is designed as a money-market investment vehicle.

The Institutional Cash Fund is designed for those who desire their assets to be invested in cash and cash alternatives that bear no risk and have a predetermined rate of return.

100 % TOTAL

FEES

The fees and the potential returns are both determined by the asset allocation, so it depends on what the donor advises for the investment of the account.

If the donor chooses to invest the account in the Institutional Cash Fund, there is no fee. The return is predetermined each December for the subsequent year. For Calendar year 2021, the fund is yielding 2.95% paid monthly on the average daily balance in the account.

If the donor chooses one of the market options, the fee is 0.75% on the first \$2.5mm, 0.45% on balances between \$2.5mm and \$5.0mm, then 0.35% on balances more than \$5.0mm.
