

Kingdom Capital

Closing the gap between what you
believe and what you own.

Faith-aligned investing backed by 80 years of experience.

You can't steward **WHAT YOU CAN'T SEE**

Most Christian organizations don't choose their investments with their beliefs in mind - not because they don't care, but because conventional investment strategies make it hard to see what you actually own. You can't steward what you can't see.

Biblical stewardship demands a lot. We make it manageable.

- Faithfully stewarding God-given resources
- Aligning investments with biblical convictions
- Generating dependable income
- Managing endowments and designated funds
- Accessing institutional expertise.

Ministries shouldn't have to choose between faith, performance, and professional management. ***This is why Kingdom Capital was built.***

From Misalignment **TO MISSION-DRIVEN**

Getting to faith-aligned stewardship doesn't require starting over. It requires clarity about where you are, a plan built around your convictions, and a partner who keeps you accountable to both.

A Simple Path Forward

- 1 Review** - We begin with a Capital Alignment Assessment: a structured examination of your current portfolio to identify where your holdings may conflict with your doctrinal commitments. You can't steward what you can't see.
- 2 Build** - With a clear picture in hand, we construct a professionally managed, faith-screened portfolio built around your institution's specific goals. Whether you need long-term endowment management, a liquid cash management solution, or something tailored to your unique position; we build to your mission, not a template.
- 3 Oversee** - Stewardship doesn't end with a strong portfolio. We provide ongoing reporting and board-ready oversight so your leadership can stand behind every investment decision, quarter after quarter.

Who it's for:

- Christian Schools & Universities
- Churches
- Ministries
- Missions Agencies
- Faith-based Nonprofits & Foundations

Let's Partner Together

Kingdom Capital provides institutional, faith-aligned asset management for churches and ministries — backed by 80 years of experience.

Kingdom Capital can help you:

Steward assets faithfully.

Align investments with convictions.

Focus on lasting Kingdom impact.

**Your organization should be able to answer this question:
Does your portfolio reflect your convictions?**

**The answer should always be yes.
We'll help you get there.**
